

# VACUUM ACCESSORIES

**P11963**  
**Rubber brush with antistatic brass bristles strips ø 50mm**

Square suction brush with brass bristles for 50 mm diameter flexible hose. Conductive accessory, convenient for use with ATEX industrial vacuums

**P11495**  
**Brush with antistatic brass bristles strips ø 40mm**

Round suction brush with brass bristles for 40 mm diameter flexible hose. Conductive accessory, convenient for use with ATEX industrial vacuums

**P11496**  
**Brush with antistatic brass bristles strips ø 50mm**

Round suction brush with brass bristles for 50 mm diameter flexible hose. Conductive accessory, convenient for use with ATEX industrial vacuums

**P00330**  
**Scraping suction pipe ø 70mm**

Galvanised steel scraping suction pipe 70 mm diameter

**P12346**  
**PVC round brush ø 50mm**

PVC suction brush with bristles for 50 mm diameter flexible hose

**P00312**  
**Aluminium extension (1m) ø 40mm**

Aluminium suction extension 1 metre long with 40 mm diameter

**P12641**  
**Triangular brush FDA blue**  
 Triangular brush FDA blue

**P12642**  
**Triangular brush FDA red**  
 Triangular brush FDA red

**P00313**  
**Aluminium extension (1m) ø 50mm**  
 Aluminium suction extension 1 metre long with 50 mm diameter

**P00640**  
**"S" handgrip for floor brush ø 40mm**  
 Sturdy metal "S" pipe for 40 mm diameter floor brush

**P00823**  
**Aluminium extension (2m) ø 40mm**  
 Aluminium suction extension 2 metres long with 40 mm diameter

**P00649**  
**"S" handgrip for floor brush ø 50mm .**  
 Sturdy metal "S" pipe for 50 mm diameter floor brush

**P00824**  
**Aluminium extension (2m) ø 50mm**  
 Aluminium suction extension 2 metres long with 50 mm diameter

**P11792**  
**Wet & Dry fixed brush ø 40mm**  
 Wet & dry fixed accessory with 40 mm diameter flexible hose fitting

**P00327**  
**Wet & Dry fixed brush ø 50mm**  
 Wet & dry fixed accessory with 50 mm diameter flexible hose fitting

**P11964**  
**Rubber brush with antistatic brass bristles strips ø 40mm**

Round suction brush with brass bristles for 40 mm diameter flexible hose. Conductive accessory, convenient for use with ATEX industrial vacuums

**P00328**  
**Scraping suction pipe ø 40mm**

Galvanised steel scraping suction pipe 40 mm diameter

**P00640/A**  
**ATEX "S" handgrip for floor brush ø 40mm**

Sturdy metal "S" pipe for 40 mm diameter floor brush with brass bristles

**P00649/A**  
**ATEX "S" handgrip for floor brush ATEX ø 50mm**

Sturdy metal "S" pipe for 50 mm diameter floor brush with brass bristles

**P00829**  
**"S" handgrip for floor brush ø 70mm**

Sturdy metal "S" pipe for 70 mm diameter floor brush

**P01039**  
**Floor brush with bristles strips ø 40/ L 400mm**

Suction floor brush with bristles 40mm diameter and 400 mm long

**P01040**  
**Floor brush with bristles strips ø 50/ L 400mm**

Suction floor brush with bristles 50mm diameter and 400 mm long

**P10477**  
**Antistatic rubber conic section with metal fitting ø 70mm**

Antistatic conic section with metal fitting for 70 mm diameter flexible hose

**P11978/40**  
**Silicone rubber conic section with metal fitting ø 40mm**

Silicone conic section with metal fitting for 40 mm diameter flexible hose

**P01043**  
**Floor brush with bristles strips**  
**ø 70/ L 400mm**

Suction floor brush with bristles  
70mm diameter and 400 mm  
long

**P11978/50**  
**Silicone rubber conic section**  
**with metal fitting ø 50mm**

Silicone conic section with  
metal fitting for 50 mm  
diameter flexible hose

**P01042**  
**Floor brush with bristles strips**  
**ø 50/ L 500mm**

Suction floor brush with bristles  
50mm diameter and 500 mm  
long

**P11978/70**  
**Silicone rubber conic section**  
**with metal fitting ø 70mm**

Silicone conic section with  
metal fitting for 70 mm  
diameter flexible hose

**P00299**  
**Antistatic flat pipe ø 40mm**

Galvanised steel suction lance.  
Handy and durable. Conductive  
and therefore suitable for  
working with ATEX certified  
machines. 40mm diameter  
flexible hose fitting

**P00301**  
**Antistatic flat pipe ø 50mm**

Galvanised steel suction lance.  
Handy and durable. Conductive  
and therefore suitable for  
working with ATEX certified  
machines. 50mm diameter  
flexible hose fitting

**P00302**  
**Antistatic flat pipe ø 70mm**

Galvanised steel suction lance.  
Handy and durable. Conductive  
and therefore suitable for  
working with ATEX certified  
machines. 70mm diameter  
flexible hose fitting

**P11660**  
**Antistatic rubber flat pipe with**  
**metal fitting ø 40mm**

Suction lance in special oil-  
proof rubber, carbon-loaded  
and therefore conductive,  
suitable for working with ATEX  
certified machines. 40mm  
diameter flexible hose fitting

**P11613**  
**Antistatic rubber flat pipe with**  
**metal fitting ø 50mm**

Suction lance in special oil-  
proof rubber, carbon-loaded  
and therefore conductive,  
suitable for working with ATEX  
certified machines. 50mm  
diameter flexible hose fitting

**P01039/EX**

**Antistatic floor brush with brass bristles strips  $\varnothing$  40/ L 400mm**

Antistatic floor brush with brass bristles for use with ATEX certified vacuums, 40mm diameter / 400mm long

**P09095**

**Antistatic rubber conic bend with metal fitting  $\varnothing$  40mm**

Suction cone in special oil-proof rubber, carbon-loaded and therefore conductive, suitable for working with ATEX certified machines. The cone can be cut in various marked points so that the suction section can be increased. 40mm diameter flexible hose fitting

**P09096**

**Antistatic rubber conic bend with metal fitting  $\varnothing$  50mm**

Suction cone in special oil-proof rubber, carbon-loaded and therefore conductive, suitable for working with ATEX certified machines. The cone can be cut in various marked points in order to increase the suction section. 50mm diameter flexible hose fitting

**P01040/EX**

**Antistatic floor brush with brass bristles strips  $\varnothing$  50/ L 500mm**

Antistatic floor brush with brass bristles for use with ATEX certified vacuums, 50mm diameter / 500mm long

**P10238**

**Antistatic sweeper nozzle with metal fitting  $\varnothing$  40mm**

Suction cup in special oil-proof rubber, carbon-loaded and therefore conductive, suitable for working with ATEX certified machines. 40mm diameter flexible hose fitting

**P10239**

**Antistatic sweeper nozzle with metal fitting  $\varnothing$  50mm**

Suction cup in special oil-proof rubber, carbon-loaded and therefore conductive, suitable for working with ATEX certified machines. 50mm diameter flexible hose fitting

**P01035**

**Floor squeegee with rubber strips  $\varnothing$  40/ L 400mm**

**P09097**

**Pipe cleaning brush  $\varnothing$  100mm with metal fitting  $\varnothing$  40mm**

**P09151**

**Pipe cleaning brush  $\varnothing$  200mm with metal fitting  $\varnothing$  40mm**

Floor squeegee with rubber strips 40 mm diameter 400 mm long

**P01036**  
**Floor squeegee with rubber strips  $\varnothing$  50/ L 400mm**  
Floor squeegee with rubber strips 50 mm diameter 400 mm long

**P01038**  
**Floor squeegee with rubber strips  $\varnothing$  70/ L 500mm**  
Floor squeegee with rubber strips 70 mm diameter 500 mm long

**P00783**  
**Extension pipe with handle  $\varnothing$  70mm**  
70 mm diameter probe pipe with inner liner for air passage.

Suction brush for 100mm diameter overhead pipes. 40mm diameter suction pipe fitting

**P00834**  
**Floor squeegee with rubber strips  $\varnothing$  50/ L 500mm**  
Floor squeegee with rubber strips 50 mm diameter 500 mm long

**P11419**  
**Probe pipe with handle  $\varnothing$  50mm**  
Galvanised steel suction pipe 50 mm diameter

**P00784**  
**Extension pipe with handle  $\varnothing$  100mm**  
100 mm diameter probe pipe with inner liner for air passage.

Suction brush for 200mm diameter overhead pipes. 40mm diameter suction pipe fitting

**P00329**  
**Scraping suction pipe  $\varnothing$  50mm**  
Galvanised steel scraping suction pipe 50 mm diameter

**P09092**  
**Probe pipe with handle  $\varnothing$  70mm**  
Galvanised steel suction pipe 70 mm diameter

**P00307**  
**Oil proof rubber conic section with metal fitting  $\varnothing$  40mm**  
Oil-proof conic section with metal fitting for 40 mm diameter flexible hose

Useful for vacuuming piles of material.

**P00308**  
**Oil proof rubber conic section**  
**with metal fitting ø 50mm**

Oil-proof conic section with  
metal fitting for 50 mm  
diameter flexible hose

Useful for vacuuming piles of material.

**P00309**  
**Oil proof rubber conic section**  
**with metal fitting ø 70mm**

Oil-proof conic section with  
metal fitting for 70 mm  
diameter flexible hose

**P10475**  
**Antistatic rubber conic section**  
**with metal fitting ø 40mm**

Antistatic conic section with  
metal fitting for 40 mm  
diameter flexible hose

**P10415**  
**Antistatic rubber conic section**  
**with metal fitting ø 50mm**

Antistatic conic section with  
metal fitting for 50 mm  
diameter flexible hose
